📁 PROFESSIONAL EXPERIENCE :

EXPLORE-TECH (PHP & LARAVEL)

Back-End Developer & DB Architect Designer

(June 2022 - Present)

<https://www.explorettech.io>

- In the ExploreTECH project, I played a key role in backend development, focusing on creating and synchronizing the admin panel with the main website. Working quickly, I developed backend modules and seamlessly integrated them with the front end, ensuring smooth communication between systems. The primary purpose is to compare hospitality management software solutions, enhancing the efficiency of technology selection for the hospitality industry. (UAE)

WISHLIST (PHP & LARAVEL)

E-commerce API Specialist

(Jan 2022 - Nov 2023)

<https://www.wishlist.com>

- Contributed to the development and enhancement of a scalable wishlist and gifting platform designed for seamless user experience. Implemented secure wishlist management features, gifting modules, and user dashboard functionalities using Laravel and JavaScript. Designed and integrated intuitive UI components for real-time wishlist updates developed backend APIs for secure user data handling and gift sharing workflows; ensured data synchronization, scalability, and optimal performance; collaborated with design and QA teams to ensure smooth cross-device compatibility; implemented strong user authentication, data privacy, and platform security using industry. (UAE)

GREENWING TECHNOLOGY (CORE PHP)

Ecommerce PunchOut & Core PHP Developer

(Mar 2021 - Nov 2023)

<https://www.greenwingtechnology.com>

- In the ExploreTECH project, I played a key role in backend development, focusing on creating and synchronizing the admin panel with the main website. Working quickly, I developed backend modules and seamlessly integrated them with the front end, ensuring smooth communication between systems. The primary purpose is to compare hospitality management software solutions, enhancing the efficiency of technology selection for the hospitality industry. (IE)

CONSULAT HONORAIRE DU NIGER AU GABON (PHP & LARAVEL)

Full Stack Web Developer

(Mar 2021 - Nov 2023)

<https://services.consulatnigergabon.org>

- In the ExploreTECH project, I played a key role in backend development, focusing on creating and synchronizing the admin panel with the main website. Working quickly, I developed backend modules and seamlessly integrated them with the front end, ensuring smooth communication between systems. The primary purpose is to compare hospitality management software solutions, enhancing the efficiency of technology selection for the hospitality industry. (NIGERIA)

DKHOON ALEMIRATIA (PHP & LARAVEL)

(Apr 2024 - Nov 2024)

Full Stack & Data Analyst E-commerce API Developer

<https://dkhoonemirates.com>

- Collaborated with Dakhoon ALEmiratia to integrate ZID platform APIs into a custom Laravel application, enhancing merchant functionalities. Developed real-time data reporting solutions using Power BI, enabling comprehensive insights from ZID's API data. Streamlined operations for merchants by utilizing ZID's services for secure transactions and logistics management. Contributed to data-driven decision-making processes through effective reporting and visualization techniques.

(UAE)

ZID E-COMMERCE SOLUTIONS (PHP & LARAVEL)

(Jan 2024 - Nov 2024)

E-commerce API Specialist

<https://zid.sa/en/about-zid>

- Collaborated directly with ZID to integrate their services, including Zid Pay for secure payment processing, Zid Ship for logistics management, and Zid API for custom development in a Laravel application. Integrated all ZID APIs for their merchant platforms within a Laravel application, enhancing the functionality and user experience for merchants. Developed and optimized e-commerce solutions that enhanced operational efficiency and improved user experience for clients. Contributed to project success by ensuring facilitating smooth transactions and logistics operations. E-commerce Platform , ZID Merchant Portal, Zid Pay, Zid Ship, API Integrations.

(SA)

FALCON-TRAVEL (PHP & MYSQL)

(Aug 2022 - Feb 2023)

Full Stack Web Developer

<https://falcon-travel.com>

- Developed a robust and scalable travel website with multilingual support, offering users a seamless experience for booking tours, hotels, and travel packages. Focused on delivering a high-performance user interface with dynamic content loading and secure user authentication. Integrated advanced search filters, location-based recommendations, and automated inquiry systems. Ensured compatibility across all devices with responsive design practices. On the backend, I handled booking logic, database management, and third-party API integrations to manage packages, availability, and customer inquiries in real-time.

(Australia)

WILLOWAUBREY ECOMMERCE STORE (PHP + Opencart)

(Jul 2021 - Dec 2022)

Ecommerce PunchOut & Core PHP Developer

<https://www.willowaubrey.com>

- Developed a complete e-commerce web application using OpenCart for a Lebanon-based clothing brand, which receives and delivers orders globally. Designed and implemented the website, enabling shipping of products to multiple countries, with integrated DHL live rates for global shipping methods and expected delivery dates and times. Successfully set up the store, enhancing the brand's online presence and sales capabilities.

RELOCATION AVAILIBLYT :

- I'm open and excited to relocate anywhere internationally to work on interesting Web Application engineering projects. I look forward to bringing my skills to a new place and making a positive impact on projects around the world.

ACHIEVEMENTS & CERTIFICATIONS :

- Web Application Development Certification** from E Ventures Solution(EVS) (2014)
- 3Ds Max and Maya** Certificate from Axisloop Studio (2015)
- Game Development** Certificate Unity3D from HexaExperts in (2015)
- Graphics Designing** Certificate from Peak Solutions (2016)
- AWS** Certification is in progress (2022)
- Gen AI** Certification is in Progress (2023)

TECHNICAL SKILLS :

Languages: :	PHP,SQL,Python,Node.js,,C++
Artificial Intelligence:	OpenAI(ChatGPT), Claude, DeepSeek, Gemini, bolt, llama, Lovable.dev, Grok, crewai, M Mistral, MetaAI, n8n, elevenlabs, replit
Frameworks:	Laravel, CodeIgniter, Express.js, React.js, Next.js, Bootstrap
Database Management:	MySQL, PostgreSQL, MongoDB
Cloud Servers & Hosting:	AWS, Google Cloud Platform, DigitalOcean, GoDaddy, Bluehost, Hostinger, SiteGround
Servers:	Apache, Nginx, Plex
Stacks:	XAMPP, LAMP, MAMP
CMS:	WordPress, OpenCart
VCS:	Git, BitBucket, GitHub
OS:	Windows, Linux, Ubuntu
Interactivity:	Vanilla JavaScript, jQuery, AJAX, JSON
APIs:	RESTful, JSON APIs, GraphQL
Authentication:	Authentication:
Payment Gateways:	Stripe, PayPal, Authorize.Net, Worldpay, Razorpay, Sarawak Pay, PayFort
Testing:	Unit Testing, Functional Testing
Designing:	Adobe Photoshop, Adobe Illustrator, Corel Draw
Current Learning:	Generative AI, Blockchain
Third-Party Integrations:	Facebook, Google, Zoom, PayPal, Stripe, Google Maps, Google Street View, WorlAgora, GetStream, Interactive Brokers LLC, Ioncube, and others.

EDUCATION :

VIRTUAL UNIVERSITY OF PAKISTAN (MSCS)

(2016 - Freeze)

Master of Science in Computer Science

- Completed an advanced program in computer science, building on foundational knowledge with a deeper focus on complex data structures, database systems, and advanced software development. Engaged in research-driven projects and practical assignments that enhanced expertise in designing optimized algorithms, managing large-scale databases, and developing innovative software solutions.

VIRTUAL UNIVERSITY OF PAKISTAN (BSCS)

(CGPA 3.6)

(2010 - 2014)

Bachelor of Science in Computer Science (BSCS)

- Completed a comprehensive program in computer science, with in-depth study and practical applications in data structures, database management, and software development. Developed strong analytical and problem-solving skills through coursework and projects involving algorithm design, database optimization, and application development. Acquired experience in programming languages and tools essential for creating efficient, scalable software solutions.

PROJECTS :

With over 12 years of hands-on experience in web application development, I have successfully delivered a diverse range of projects involving both front-end and back-end development. Below is a selection of key projects showcasing my expertise..
